

QAWE

Company Profile

Minerals & Commodities Trading, Sourcing and Supply

BUSINESS FOCUS

Trading, sourcing and supply of minerals and commodities.

CORE COMMITMENT

Quality products, reliable supply, efficient execution and seamless delivery.

This document provides a professional overview of QAWE, its business focus, commodity offering, service capability and management contacts.

1. Company Overview

QAWA operates in the minerals and commodities sector, with a focus on the **trading, sourcing and supply of minerals and commodity products**. The company serves customers requiring dependable access to mineral products and supports the commercial and logistical activities required to move products from origin to destination.

QAWA's business approach is centered on connecting customer requirements with suitable supply opportunities while coordinating the activities necessary for an efficient transaction.

The company aims to provide buyers with a professional and dependable experience built around **quality, reliability, transparent coordination and efficient execution**.

2. Core Services

QAWA provides end-to-end support across the mineral and commodity supply process. Depending on the customer's requirements, this includes:

- **Sourcing:** Identifying and coordinating suitable mineral and commodity supply according to customer requirements.
- **Quality Verification:** Supporting product verification and quality-related requirements before shipment.
- **Documentation:** Coordinating the required commercial and shipment documentation.
- **Logistics:** Managing and coordinating movement of products through the supply chain.
- **Export:** Supporting export processes and associated coordination.
- **Shipping:** Coordinating transportation and shipment arrangements from origin.
- **Final Delivery:** Supporting the process through to delivery at the agreed destination.

QAWA's end-to-end approach is intended to reduce unnecessary complexity for buyers by bringing sourcing, verification, documentation and logistics coordination together within one business relationship.

3. Minerals & Commodities

QAWA works with a range of minerals and commodity products. The current offering includes the following categories:

CATEGORY	COMMODITIES / PRODUCTS
Precious Metal	Gold
Base & Industrial Metals	Copper, Cobalt
Copper Products	Copper Cathode, Copper Concentrate, Copper Wire
Critical Minerals	Tantalite, Coltan
Industrial Material	Sulfur

Customer Requirements	Other minerals and commodities based on specific customer requirements and available supply
-----------------------	---

Product availability, specifications, quantities and commercial terms are subject to customer requirements, sourcing and applicable transaction arrangements.

4. Our Value Proposition

Quality Focus

QAWA emphasizes quality verification and appropriate product documentation as part of the supply process.

Reliable Supply

The company focuses on identifying and coordinating supply that matches the buyer's stated requirements.

End-to-End Coordination

Customers can receive support across sourcing, verification, documentation, logistics, export, shipping and delivery.

Efficient Execution

The objective is to keep the transaction process coordinated and straightforward from origin to destination.

Customer-Centered Service

Supply is approached according to the customer's requirements rather than a one-size-fits-all product model.

5. Supply & Service Approach

QAWA's service approach can be understood as a coordinated supply chain:

01 Customer Requirement

Understand the customer's requested commodity, specification and destination.

02 Sourcing

Identify and coordinate an appropriate supply opportunity.

03 Verification

Support quality and product verification requirements.

04 Documentation

Coordinate commercial, export and shipment documentation.

05 Logistics & Shipping

Coordinate movement and shipment from origin.

06 Delivery

Support final delivery to the agreed destination.

This model is designed to provide buyers with a single, clear commercial relationship while the required supply-chain activities are coordinated from origin to destination.

6. Leadership & Management

QAWA is supported by a core management team responsible for leadership, public relations and financial coordination.

7. Customer Commitment

QAWA's customer proposition is built around dependable service and coordinated execution. The company seeks to make mineral and commodity transactions easier for buyers by supporting the activities that connect supply with final delivery.

The intended customer experience is straightforward: understand the requirement, identify suitable supply, verify the product, coordinate the necessary documentation and logistics, and support delivery to the agreed destination.

8. Professional Positioning

QAWWE presents itself as a professional minerals and commodities trading, sourcing and supply partner. Its business proposition combines access to mineral products with practical supply-chain coordination.

The company's focus is on building reliable commercial relationships through **quality products, dependable supply, efficient execution and seamless delivery.**

9. Contact & Business Enquiries

For business enquiries, customers and partners may contact the appropriate member of the QAWWE management team using the official contact details provided by the company.
